

Emerald Tabs MINI

Biodegradable Tablets for Condensate Drain in Split and Fan-Coil

EMERALD TABS MINI is a product which has been specifically formulated for all types of Air Conditioning and Refrigeration Systems where there is condensation.

The water within the condensate collection trays or in the drain pan is full of all the pollutants you can normally find in the environment: dust and microbes can accumulate, getting together and forming masses that block the condensate drain, also generating annoying overflows.

EMERALD TABS MINI are the solution for this type of problem and thanks to their small size they are suitable for each type of Systems. **EMERALD TABS MINI** contain no pollutants and are completely biodegradable.

Instructions: Simply put different Tabs all along the condensate collection trays of the System. Do this operation monthly, in order to avoid any kind of problem.
